**Costs per person:** 20 CHF

Workshop participation, venue, coffee/tea, pastries & fruit

**Included:**

**Not Included:**

Lunch meal, travel to venue

### ***Why is this workshop of interest?***

With over 50 years of combined pharmaceutical industry experience, Achim and Julie have successfully coached 200+ quantitative experts – statisticians, pharmacometricians, and data analysts – across the globe. Their training has been highly received at events like the Basel Biometric Society Next Generation Training Day and the Danish Society for Biopharmaceutical Statistics.

### ***Who should attend?***

Are you a statistician, data scientist, pharmacometrician, or a programmer based in our Suisse Romande region and working in the Biometrics space?

While collaborating with quantitative or non-quantitative colleagues, do you often feel that the way teams communicate could be improved? Do you feel the need for tools and tips that can help you communicate more effectively?

We have you covered! You are invited to a fun and interactive workshop to address the gaps you may have spotted. Whether you are beginning your career, or you are an experienced pro who wants to sharpen your skills further: this workshop has something for everyone.

### ***About the Workshop***

This half-day workshop is designed for statisticians and biometric professionals who want to enhance their communication and collaboration skills.

- Key Topics: The course covers verbal and written communication, meeting preparation and execution, self-awareness and feedback, and networking.
- Course Impact: Emphasis on how communication skills build trust, relationships, and collaboration, with opportunities to share experiences and learn from others.

The workshop includes role-playing and exercises, providing tools that can be immediately applied to daily workflows.

Don't miss out on this opportunity to enhance your skills in a fun and interactive way!

We look forward to your participation!
